## **OUR DEMANDS**

## "BRING BACK NATURE"

80% of the rules and regulations affecting hunting and conservation come from Brussels.

- 1. We want a Europe rich in biodiversity for all.
- 2. We want nature policy to incentivise hunters' conservation work, including in protected areas.
- 3. We want the EU nature law to deliver results for ecosystems and habitats for small game, especially wetlands and farmlands.
- 4. We want a more objective and evidence-based approach to hunting, including regional hunting practices.
- 5. We want accurate assessments of large carnivore populations based on suitable criteria and a procedure to amend their listing under the Habitats Directive.
- 6. We want hunters to be recognised as being part of the solution for nature conservation, not the problem.
- 7. We want laws and decisions affecting hunting to be fair, and deliver clear benefits, respecting the principles of subsidiarity and proportionality.
- 8. We want our cultural heritage to be respected, which is vital to the future of a diverse Europe and for enriching the lives of individual citizens.
- 9. We want Brussels to take this agenda to the international level because the EU has a strong influence at the global level.
